

# PROGRAMME OF ACTIVITIES 2020

(as of March 2020)

## Training Programme in International Humanitarian Law (IHL)

Our training programme provides a structured approach to building an in-depth knowledge of International Humanitarian Law (IHL), addressing different levels of prior experience developing from foundation to advanced levels with specialised courses to cover specific topics in greater detail. Courses provide a sound understanding of fundamental issues but are also continually reviewed to address current issues in IHL. The Institute focuses on delivering practical and experience-based instruction, supported by exercises and case studies to reinforce the participant's understanding. Course Leaders and participants come from across the world, ensuring a unique environment with a diverse, challenging and stimulating international perspective. Our training courses are suitable for both civilian and military personnel. Whilst many of our courses will be useful to those with a legal background, they are equally relevant to specialist operators and planning staffs.
