## Course Profile

The course on International Disaster Law will offer participants a unique opportunity to analyse one of today's most important legal challenges: the prevention and management of disasters. Lectures will be delivered by distinguished speakers including Eduardo Valencia-Ospina (former Special Rapporteur of the ILC on the Protection of Persons in the Event of Disasters and current ILC Member), Isabelle Granger (Global Lead, Disaster Law and Auxiliary Role, IFRC), Gian Luca Burci (Adjunct Professor, Graduate Institute of International and Development Studies, Former Legal Counsel, WHO), Giulio Bartolini (Editor-in-Chief, Yearbook of International Disaster Law) and Walter Kälin (University of Bern, Former Representative of the UN Secretary-General on the Human Rights of Internally Displaced Persons), along with other high-level speakers from academia and distinguished experts from International Organizations such as the International Organization for Migration.

The programme seeks to offer a comprehensive overview of the main practical, humanitarian and military issues related to the legal aspects of disaster prevention and management activities. Topics will be covered using a plenary-based approach complemented by practical exercises designed to test the participants' ability to find outcome-oriented solutions through the application of relevant IDL provisions.
