

GENERAL COURSE PROFILE

The aim of the Rules Of Engagement (ROE) Course is to provide participant's with an understanding of the functions of ROE, their formulation, implementation, interpretation and management.

The Course examines the relationship between legal, political, and operational parameters in the formulation of ROE and the inherent tensions between the competing concerns of risk to mission and risk to force. Using an end to end approach, ROE issues are placed within the context of staff processes from operational design to mission execution by operators.

The key overarching teaching objectives of the Course are for participants to understand:

- (1) The legal bases for the use of force under IHL in ROE (including conflict classification).
- (2) ROE and law of the sea, air law, and SOFAs.
- (3) ROE as a command and control tool for the use of force.
- (4) The relationship between ROE and Staff processes, products (including targeting directives) associated with ROE formulation, promulgation, and modification (ROE management).
- (5) The definitions and relationships of Self-defence, Hostile Intent & Hostile Act to ROE.
- (6) Key elements of selected national and multinational ROE systems including caveats, interoperability.
- (7) Drafting ROE for a wide range of single service, joint, and multinational operations, using the Sanremo ROE Handbook.
- (8) Interpreting ROE and application to operational issues.
- (9) ROE training & training audiences.
- (10) ROE incidents, investigations and consequences.

ROE topics are examined in the single service, national, joint and multinational environments and from a strategic, operational, and tactical level of command perspective.

The focus throughout the Course is an experienced based practical methodology which practically addresses topics.

The Course is designed as core training for military officers and civilian personnel, staff advisors and operators concerned with ROE in the planning, training, or the conduct of operation and who have a relevant legal and/or operational experience.

Additionally, in order to fully benefit from the programme, the Teaching Staff requests participants to read the Sanremo ROE Handbook and the ROE Course Scenario Introduction before the start of the ROE Course. Both documents can be found on the ROE Course website (<https://iihl.org/military-department-4/rules-of-engagement-course/http://www.iihl.org/y2019/rules-engagement-roe/>).
